ICPC Algoqueen: July 2025
Global Rank 100

Hacktoberfest 2025: Oct 2025
7 PRS merged

Hacktoberfest 2024: Oct 2024
10 PRS merged

EXPERIENCE

InterviewBit

SDE Intern

Nov 2025 - present

Bangalore

- Worked on multiple short-term, project-based teams, adapting quickly to new codebases and requirements.
- Built high-fidelity clones of real-world applications including **ServiceNow Service Desk**, **Asana**, and **Zendesk**.
- Developed pixel-perfect, responsive UIs matching original products using **React (TSX)** and **Next.js**.
- Implemented backend functionality using **Python (FastAPI)** to ensure end-to-end feature completeness and optimal performance.
- Collaborated on projects aimed at generating realistic application workflows for **AI training** and evaluation.
- Tech stack - React (TSX), Next.js, Python.

PROJECTS

AiHub

Aug 2025

- Developed a **full-stack AI SaaS** app offering AI tools: article generation, title generation, image generation, background removal, object removal, and resume review.
- Implemented secure user authentication (signup, login, logout) with Clerk
- Implemented PostgreSQL database using Neon for scalable storage and data management.
- Integrated AI APIs for the AI tools.
- Tech Stack - PostgreSQL (Neon), Express.js, React, Node.js, Clerk

AI Rock Paper Scissors

Nov 2025

- Developed a web app where user can play rock paper scissors with AI where the AI will always win.
- Implemented **Machine Learning** for hand gesture recognition.
- Tech Stack - MediaPipe Hands API, HTML, CSS, JavaScript

Sugar & Swirl

Apr 2025

- Built a dessert ordering web app.
- Implemented secure user authentication (signup, login and logout) with Firebase
- Used React Context API for state management.
- Tech Stack - React, React Context API, Firebase
